

Here in Rock Springs we don't have a great variety of radio stations but that's ok. We do as of now get K-Love and that's a great assist for our community. K-Love as you know is listener supported and Rock Springs has enough people here who believe in what K-Love does to support it. I love the fact that I can turn on my radio at any given time with K-Love and know I'm getting a positive message. It's uplifting, and you feel good about what you're hearing. I don't ever at any time have to turn it off, because I'm afraid of what my kids might hear. Our society has gone so downhill. Every thing that has to do with values and morals are thrown out the door any more. Rock Springs is a very oppressed place and K-Love is one light that shines here for those that are in the dark. We don't have the right to say God in schools any more, the Ten commandments can't be displayed in our courts and many other great important things have been taken out. Don't do this our world needs what K-Love has to offer. I am a monthly supporter I believe strongly in what they do. Maybe if you listen to them from where you're at you would see the necessity to keep things the way they are. And your fight will end up being for the greater cause that we all need.
